Silver City, NM

For more than ten years, Maureen has taught classes and workshops in the Appalachian dulcimer to hundreds of students in more than sixteen states. Maureen brings an enthusiastic and down-to-earth approach to the amateur musician. Her style and music preferences for the dulcimer are varied. Coming from a childhood exposed to Big Band music, rock and roll, classical, and folk music, she loves almost every type of music.

Maureen approaches both her workshops and performances with a warmth and sense of humor that makes the student and audience feel at ease. She creates a comfortable and creative atmosphere for learning.
